Item 2.02. Results of Operations and Financial Condition

Item 8.01. Other Events

PRIMUS Telecommunications Group, Incorporated (OTCBB: PRTL), an integrated communications services provider, received a refund as a consequence of excessive rates previously charged by Telstra Corporation. The refund resulted from the Final Determination (“FD”) of the Australian Competition and Consumer Commission (“ACCC”) concerning access disputes between Primus Australia (“Primus”), an indirectly wholly-owned subsidiary, and Telstra for unconditioned local loop (“ULLS”) connection, managed network and call diversion charges. These services are key components of high speed broadband services offered by Primus.

The FD pricing directives were retroactively applied to services procured by Primus from Telstra from June 10, 2004 for connection and managed network charges and from May 10, 2005 for call diversion charges. As a result, Primus has received refunds from Telstra of certain excessive charges of Aus\$6.5 million plus interest of Aus\$1.3 million. Although Telstra cannot directly appeal the Final Determination, it has sought judicial review of the ACCC’s decision challenging whether the ACCC has the authority to make a ruling on the call diversion component. Both the ACCC and Primus are contesting that challenge. The effectiveness of this FD expires on June 30, 2008. With respect to the charges, it is expected that ACCC will publish indicative prices to provide a basis for pricing beyond June 30, 2008. Absent changed circumstances, it is expected that such “indicative prices” will be similar to the FD pricing, but there can be no assurances of that outcome.

Statements in this Current Report on Form 8-K concerning future indicative pricing related to the FDs constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on current expectations, and are not strictly historical statements. Factors and risks that could cause actual results or circumstances to differ materially from those set forth or contemplated in forward-looking statements include, without limitation: judicial review of the ACCC’s FD decision, or certain risks and uncertainties, including those described under “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Short and Long-Term Liquidity Considerations and Risks”; and “—Special Note Regarding Forward-Looking Statements” contained in our annual report on Form 10-K and quarterly reports on Form 10-Q, as filed with the Securities and Exchange Commission.

**ACCESS DISPUTE BETWEEN
PRIMUS TELECOMMUNICATIONS PTY LTD (ACCESS SEEKER)
AND TELSTRA CORPORATION LIMITED (ACCESS PROVIDER)**

UNCONDITIONED LOCAL LOOP SERVICE (ULLS)

Access Dispute Notified under subsection 152CM(1) of the *Trade
Practices Act 1974* on 3 June 2005

**Final Determination under Section 152CP of the Trade
Practices Act 1974**

Background

1. On 3 June 2005, the Australian Competition and Consumer Commission (the ACCC) received a written access dispute notification (the notification) from Primus Telecommunications Pty Ltd (Primus) that an access dispute existed in relation to the supply by Telstra Corporation Limited (Telstra) of the Unconditioned Local Loop Service (ULLS). Primus' notification was provided to the ACCC pursuant to subsection 152CM(1) of the *Trade Practices Act 1974* (the TPA).
2. The ULLS is an access service involving the use of unconditioned cable, primarily copper pairs, between end-users and a telephone exchange where the unconditioned cable terminates. The ULLS is used by access seekers in conjunction with their own infrastructure in the exchange to provide services, including traditional voice services and high speed internet and data services, to end-users.
3. After holding a public inquiry, the ACCC declared the ULLS, pursuant to section 152AL(3) of the TPA, in August 1999. A copy of the declaration was published in the *Commonwealth of Australia Gazette* GN32 on 11 August 1999. After holding a further public inquiry, the ACCC re-declared the ULLS, pursuant to section 152AL(3) of the TPA, to apply from 1 August 2006 to 31 July 2009. A copy of the declaration was published in the *Commonwealth of Australia Gazette* GN31 on 9 August 2006.
4. The ACCC has formed the view that, with respect to the notification, the requirements of subsection 152CM(1) of the Act are satisfied. That is:
 - Telstra is a carrier;
 - Telstra supplies the declared ULLS;
 - Telstra has an obligation under subsection 152AR(3) of the Act to supply the ULLS to Primus; and
 - Primus is unable to agree with Telstra about terms and conditions of access to the ULLS, including the charges and other terms and conditions that are the subject of this final determination.
5. On 12 July 2006, the ACCC made an interim determination on ULLS connection charges in this matter.
6. On 29 June 2007, the ACCC extended the operation of the interim determination made on 12 July 2006 until 30 November 2007.

7. Pursuant to subsection 152CP(1) of the Act, this instrument is the final determination relating to the terms and conditions of access by Primus to the ULLS provided by Telstra.

Final Determination

Terms and conditions of access

8. This Final Determination specifies:
- ULLS 'single' connection charges, as per Schedule 1
 - ULLS MNM connection charges, as per Schedule 2
 - ULLS call diversion charges, as per Schedule 3
 - ULLS service qualification charges, as per Schedule 4
9. Subject to clause 10, other terms and conditions upon which Telstra and Primus have agreed for the supply of the ULLS are to continue to apply.
10. Except where the parties expressly agree otherwise, in the event of any inconsistency between the terms and conditions upon which Telstra and Primus have agreed for the supply of the ULLS and the intended operation of this determination, this determination is taken to apply to override any such pre-existing agreement to the extent of any inconsistency.
11. All charges expressed in this Final Determination are expressed on a GST exclusive basis.

Settlement of over or under paid amounts and interest

12. The total amount that arises from the difference between charges that have been paid by Primus and the charges specified in this determination ('the settlement amount') is to be paid:
- (a) where the charges paid by Primus are less than the charges specified in this determination, by Primus to Telstra; or
 - (b) where the charges paid by Primus are more than the charges specified in this determination, by Telstra to Primus.
- Note: For calculating the amount of money required to be paid, parties must take into account the charges paid by Primus under the interim determinations.*
13. Interest is payable on the settlement amount, compounded daily at the applicable monthly rate specified in the Large Business Variable Indicator Rate published by the Reserve Bank of Australia, for the period commencing on the price calculation date, and ending on the date that this determination takes effect.
- Note: The Large Business Variable Indicator Rate series can be obtained from the Reserve Bank of Australia.*
14. Except where the parties agree otherwise, the settlement amount is to be paid within 42 days after the date on which this determination is made.

Commencement and expiry

15. This determination has effect 21 days after the date it is made and ceases to have effect on 30 June 2008 (the expiry date).
